Belangrijkste vaardigheden

Mechatronics

Robotica

Mechanische systemen

Languages

Nederlands

Engels

Coen Greidanus

Freelance mechatronic research and development
Rotterdam, Zuid-Holland, Nederland

Ervaring

Greidanus Engineering

Mechatronic Engineer

juli 2021 - Present (4 jaar 11 maanden)

Rotterdam, Zuid-Holland, Nederland

Acoustic Insight: Development of an interface for, and control of medical diagnostic Optical Coherence Tomography device.

InteSpring: Development of semi-passive military exoskeleton.

Aquablu: Development of an IoT filtered cooler/carbonator water dispenser with flavor additions.

PrimeVision: Development for autonomous sorting robots.

InteSpring B.V.

Mechatronic Engineer

oktober 2017 - juli 2021 (3 jaar 10 maanden)

Delft, Zuid-Holland, Nederland

Development of Exobuddy a military semi-passive load-carrying exoskeleton.

Responsible for the design of the mechatronic and hydraulic system.

Rinnic/Vaude B.V.

Mechatronic Engineer

september 2014 - oktober 2017 (3 jaar 2 maanden)

Maassluis, Zuid-Holland, Nederland

Development of a recirculating electronic shower for Hamwells amongst other smaller projects

Nedinsco

Internship

september 2012 - december 2012 (4 maanden)

Development of a military stabilized pan-tilt observation platform.

VSV 'Leonardo da Vinci' & VvTP

2 jaar

Master Department

september 2011 - augustus 2012 (1 jaar)

Activities organised include several one day events like case studies, in-house days and lectures.

Symposium Committee

september 2010 - september 2011 (1 jaar 1 maand)

Organizing a symposium for 200 students about the search for extraterrestrial life.

Sabern

Medewerker

oktober 2006 - december 2009 (3 jaar 3 maanden)

Manual operations for publications using: Xml-editing, Adobe Indesign, Adobe FrameMaker.

Opleiding

Delft University of Technology

Master track Aerodynamics · (2011 - 2014)

Technische Universiteit Delft

Bachelor of Science (BSc), Mechanical Engineering · (2005 - 2011)
